

## 2023-2024 Academic Year

Dear Student,

Your plan met the University standards for health insurance, but further action is required for your waiver to be approved.

Beginning Summer 2020, all international students were required to purchase the Tulane Sponsored Health Insurance Plan (T-SHIP). You have been granted a one-year exception to this policy and you will be allowed to waive T-SHIP for the 2023-2024 academic year and will be approved upon receipt of this signed document. This exemption applies to sponsored international students who hold US-based insurance provided by their sponsor.

***Please note, the COVID-19 pandemic makes having access to healthcare very important. We strongly encourage you to purchase T-SHIP this year. If you choose another plan, please be sure it will provide you the necessary coverage while on campus and that you maintain your enrollment in the plan throughout the entire academic year.***

I acknowledge that I have read the above notification in its entirety and fully understand and acknowledge that by signing here I will be granted a **ONE-TIME** and ONE ACADEMIC YEAR exception to the waiver process of TU's Health Insurance requirement.
