General Information

Am I Eligible?

All registered Domestic and International Undergraduate students taking 1 or more credits are required to have health insurance coverage, either through this Student Health Insurance Plan or through another individual or family plan. Students are automatically enrolled in the Student Health Insurance Plan at registration and the premium is added to the student's tuition fees unless proof of comparable coverage is provided by completing the waiver.

Dependents

Insured Students who are enrolled in the Student Health Plan may also enroll their eligible Dependents.

NOTICE

California requires residents and their dependents to obtain, and maintain, health coverage or pay a penalty, unless they qualify for an exemption. Enrolling in student health insurance offered by the college or university You are attending is one way to meet this requirement.

You may be eligible to get free or low-cost health coverage through Medi-Cal regardless of immigration status. In addition, You may be eligible for free or low-cost health coverage through Covered California. Visit Covered California at www.coveredca.com to learn about health coverage options that are available for You and Your dependents, and how You might qualify to get financial assistance with the cost of coverage.

If You are under 26 years of age, You may be eligible for coverage as a dependent in a group health plan of Your parent's employer or under Your parents' individual market coverage. In addition, You may be eligible to buy individual health insurance directly from a health insurer or health plan, regardless of immigration status.

Please examine Your options carefully to see if other options are more affordable and whether You are currently eligible to enroll in these other forms of coverage pursuant to an open or special enrollment period.

How Do I Waive?

Waivers are completed through pre-registration at The Master's University (TMU).

 Please Note: Waivers are required to be completed for each plan year.
